## **Kineta Inc. Executives Presenting at Invest Northwest**

SEATTLE, WA, March 15, 2009, – Kineta Incorporated is pleased to announce its Chief Scientific Officer will present a company overview and an update on scientific and business activities at Invest Northwest 2009.

Executive Vice President and Chief Scientific Officer, Shawn Iadonato, PhD is scheduled to speak to investors March 17<sup>th</sup> at 12:15 p.m. at the investor / CEO forum at the Bell Harbor International Convention Center in Seattle.

Dr. Iadonato will provide an overview of Kineta's lead discovery science program that seeks to develop a broad spectrum antiviral drug to treat multiple viruses including influenza, Hepatitis C and Respiratory Syncytial virus (RSV.)

Also, Kineta President and CEO, Dr. Charles Magness and Senior Vice President of Corporate Development, Bill Cadwallader will conduct one-on-one meetings with investors and potential business partners.

The Kineta team looks forward to detailing its novel business model designed to build a sustainable Seattle-based biotechnology company that rewards investors early.

Invest Northwest is a forum for senior executives from Pacific Northwest public and private life sciences companies to tell their stories to institutional investors, analysts, investment bankers, fund managers, venture capitalists, angel investors and prospective corporate partners.
